Pro-Audio / Digital Radio

SONIFEX

Sonifex's new Pro Audio Streamers provide IP audio encoding and decoding in mp3, PCM and other formats. The PS-SEND converts an audio input into an IP stream, while the PS-PLAY reads an IP stream and outputs to balanced and unbalanced audio line levels. Lastly, the PS-AMP reads an IP stream and outputs audio to stereo speakers. Each unit also has an Ethernet web server to allow configuration and professional analogue & digital AES/EBU & S/PDIF I/O.
