WEEE Statement

Directive 2012/19/EU of the European Parliament and of the Council of 4th July 2012 lays down measures to protect the environment and human health by preventing or reducing the adverse impacts of the generation and management of waste from electrical and electronic equipment (WEEE).

The policy of Sonifex Ltd is to comply with all applicable laws of all jurisdictions having authority over Sonifex's business, including the WEEE directive. Accordingly, Sonifex has implemented a rigorous program designed to ensure compliance of its products with the WEEE directive. Sonifex's program includes the following measures, among others, as we have deemed appropriate:

- Joined a Producer Compliance Scheme (PCS) to manage ongoing company registration, financial obligations and data reporting obligations.
- Application of the updated "wheelie bin" marking to all products that fall under the scope of the WEEE directive.
- Keeping accurate records of Electrical and Electronic Equipment (EEE) Sonifex has placed onto the market.
- Provide product recycling information to end users to enable safe and effective treatment at the end of a product's life.

Details of Sonifex's WEEE registration and PCS can be found below:

Sonifex Ltd Registration Number:	WEEE/EF0045SY
Registration Type:	B2B - Business to business
Producer Compliance Scheme (PCS)	WEEECare
PCS Registration Number:	WEE/MP3538PZ/SCH
PCS Operator Address:	Richmond House Selby Road, Leeds, United Kingdom LS25 1NB

Information for customers can be found in product manuals, or at the following web address:

<https://www.sonifex.co.uk/company/recycling>

Based on our WEEE directive compliance program, Sonifex certifies to you that, to the best of our knowledge, all Sonifex products put onto the market by Sonifex on or after the date of this certification are in compliance with the WEEE directive.

Yours Sincerely

Marcus Brooke
Managing Director
