Voiceover unit

Sonifex

RB-MTV1: The RB-MTV1 voiceover unit is a 1RU rack-mount designed to be used in voice-over booths, news booths, commentary locations, for continuity announcements and for any other similar applications where voice needs to be added to program content and then monitored. Program feeds, auxiliary feeds and a talkback feed can be taken and monitored. The RB-MTV1 has four inputs and two outputs. It has a mono microphone input on XLR with switched coarse gain and variable fine gain control using a multi-turn preset potentiometer to give an overall gain range from +20dB to +80dB. There is also a switched LF rumble filter, switched +48V phantom power and switched level limiting control.
